Test Description

This Computer Technician Skills assessment is designed to assess a test taker's understanding of computers and the everyday troubleshooting encountered in an office environment. Topics covered by this test include working on hardware, networking and printers, operating systems, properly diagnosing issues, general maintenance, and overall security. This assessment is appropriate for entry level and mid-level computer technicians.

- Test takers, please contact your test administrator or recruiter for scoring guidelines.
- Administrators, please refer to the Scoring Guidelines page within the Resources section of your Administration Center for scoring guidelines.
